DIVISION OF  
OIL GAS & MINING

Dear Mr. and Mrs. Sprunger:

Your notice to conduct mining related operations on your unpatented mining claim Cubical #7, UMC serial number, 329595 located in NW $\frac{1}{4}$ , Sec. 20, T. 11 S., R. 11 W., SLBM, was received on May 18, 1993 and has been accepted by this office. Your existing notice case file number UTU-070641 has been amended to include this proposed operation. Please use this case file number in any future correspondence regarding this notice or your Cubical claims.

You have requested approval to post a permanent restrictive sign "Keep Out" at the area of operations for liability and public safety. In accordance with my May 10, 1993 decision, formal approval is given to leave the existing messages that are painted on rocks but the lettering is not to be maintained. This letter gives you approval to post permanent "Keep Out" signs in the active quarry. This approval does not extend to signs painted on natural features such as rocks. The signs should be of traditional design and constructed of wood, plastic, steel or other suitable materials. "Keep Out" signs will not be posted along access roads outside of the quarry. Outside the quarry, we suggest warning signs such as "Danger Blasting" or "Danger Quarry" are more appropriate than restrictive signs. The intent of 43 CFR § 3809.3-5 is not to restrict public access, but to alert or warn the public of hazardous sites or conditions. Since we have amended your notice UTU-070641 to include this proposed action, my conditional approval applies to other existing operations on your Cubical claims listed in previous notices (serial numbers UT-054-90-06N and UT-054-91-21N).

If you change your operations from what is described in your notice, please contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your notice.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, required by the Richfield District, Warm Springs Resource Area. Please follow these guidelines as they pertain to your operation.

RE: [illegible]

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with them. A copy of your notice has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ). Prior to the commencement of the proposed activity, all appropriate state water quality permits need to be obtained from the Utah Department of Environmental Quality, Division of Water Quality, located at:

288 North 1460 West  
Salt Lake City, Utah 84114-4870

A permit for explosives may be required from the Bureau of Alcohol, Tobacco, and Firearms (ATF). The address for ATF is

125 South State Street  
Salt Lake City, Utah 84145.

If ATF requires a permit, a copy of the permit should be submitted to this office.

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811. Thank you for submitting your notice.

Sincerely,

Rex Rowley  
Area Manager
